# COMPANY PROFILE

## About Ansjer

Ansjer Electronics Co., Ltd., founded in 2006, is a professional manufacturer of consumer security surveillance products. We specialize in smart home and smart community solutions and have built integrated teams for R&D, production, sales, and service, supported by a global marketing and support network.

Our headquarters is located in Zhuhai, with a production base in Zhongshan covering over 50,000 sqm of office and manufacturing space. To strengthen our global reach, we have established an office in Canada and subsidiaries in the United States, key European markets, and Hong Kong. Additionally, global technical support centers in multiple cities provide professional security products and solutions to customers in over 200 countries and regions.

We actively participate in major international trade shows such as IFA Berlin (formerly Germany FA), IFSEC International (UK), CES (Consumer Electronics Show), the Hong Kong Electronics Fair, and the Canton Fair, cultivating a customer base of over 1,000 buyers, wholesalers, and retailers across North America and Europe.

Since its inception, Ansjer has adhered to independent technological innovation, investing 13% of annual sales revenue in R&D. With a strong technical team comprising over 80% bachelor's degree holders and 10% master's degree holders, we are capable of developing core chip applications and leveraging advanced technologies such as cloud computing, cloud storage, and artificial intelligence to deliver ODM customization services, meeting diverse hardware and software solution needs.

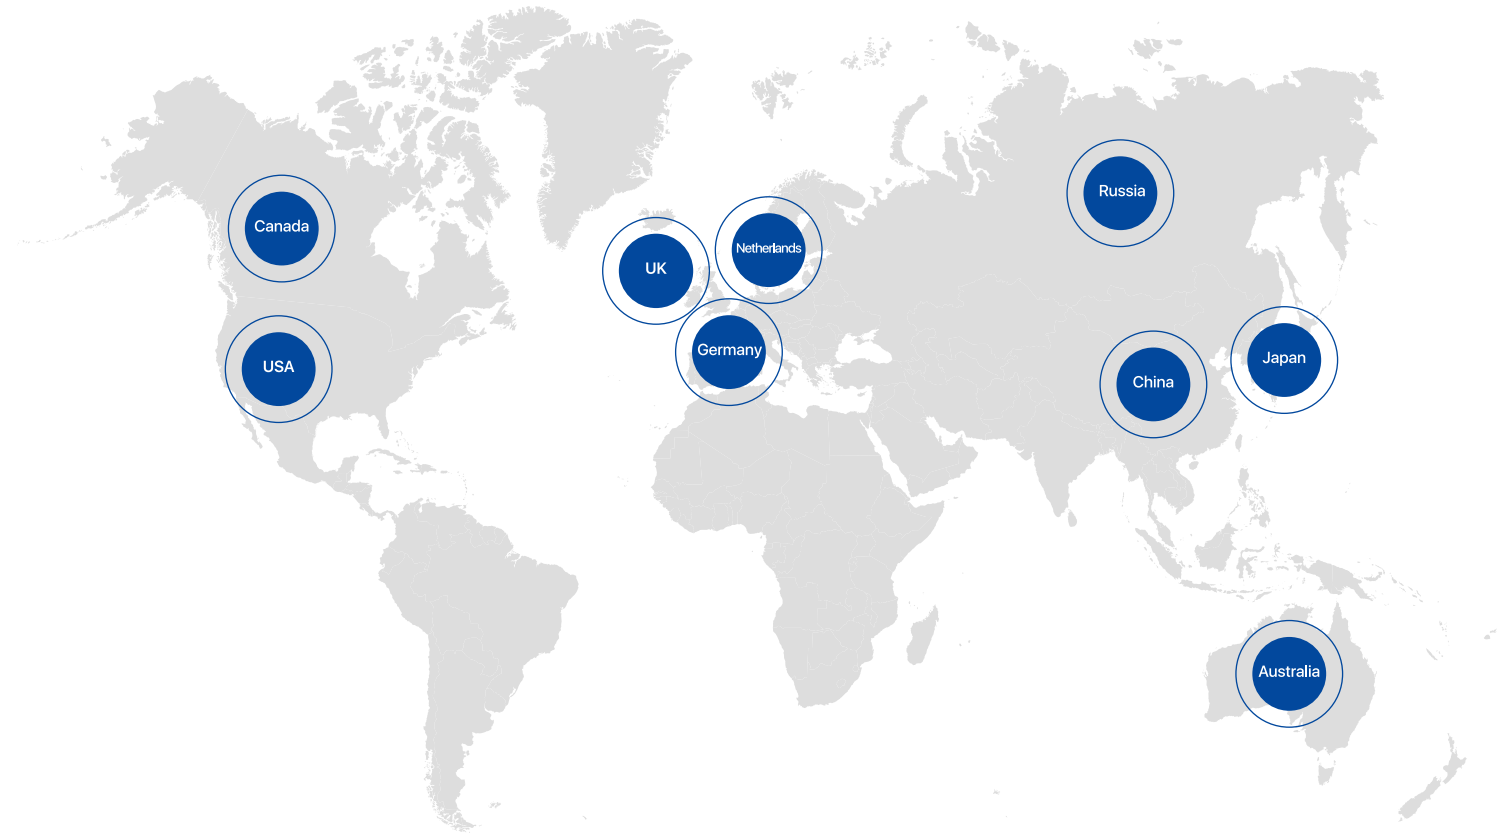

The company maintains ISO 9001:2015 certification and has passed SMETA social responsibility audits and TÜV factory audits. Under the leadership of Chairman Zhou Zhiqi, honored as an Outstanding Private Entrepreneur of Zhuhai, the company has been recognized as a National Specialized and Innovative "Little Giant" Enterprise and a High-Tech Enterprise. It has also received numerous industry awards, including the China Security Top 10 Innovative Products, China Security Innovation Enterprise, CPSE Golden Tripod Award, and the AISP International Advanced Night Vision Technology Certificate.

We hold over 300 intellectual property rights. All products carry 3C, CE, FCC, and UL certifications and comply with RoHS and California Proposition 65 standards. Guided by the corporate principles of People-Oriented, Technology-Driven, Pursuit of Win-Win, Creating Security, and committed to the philosophy "Your Safety, My Mission," Ansjer continuously provides personalized services for customers worldwide while striving to create a safer society.

## Indoor WiFi Security Cameras

The Indoor Cameras, combining stylish outlook and practical features. It is designed to provide high quality home protection with convenience. Crystal-clear video quality and a range of unique AI detection features. The indoor cameras are the best choice for home surveillance.

New

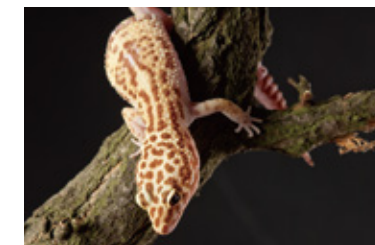

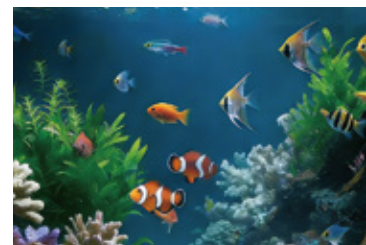

# Smart AI Aquarium WiFi Camera

## C692

Designed primarily for aquariums and fish tanks, this smart camera installs easily with tool-free adhesive mounting for quick placement on the glass. With a large F1.0 aperture and advanced imaging technology, it delivers vivid full-color footage even in low light. Built-in AI helps detect unusual activity and sends instant alerts, allowing you to monitor your aquatic pets anytime, anywhere. It can also be used for terrariums and small habitat tanks, making it perfect for observing reptiles and other small creatures.

- ① Tool-Free Adhesive Installation
- ② Up to 256GB Micro SD Card & Cloud Storage
- ③ F1.0 Aperture Full-Color Low-Light Imaging
- ④ Dual-Band WiFi & Bluetooth Setup
- ⑤ 3MP 2304 × 1296 Super HD Resolution
- ⑥ Multi-Platform Remote Viewing
- ⑦ AI Aquarium & Terrarium Activity Detection
- ⑧ Two-Way Audio Communication

# Indoor PTZ Camera - New Product Introduction

## C511

Guard your home, enjoy smart security. C511 features 3MP HD resolution for crisp, detailed images. Human auto-tracking keeps moving targets in view. Built-in two-way audio enables seamless communication. Multiple AI detection modes accurately identify anomalies. 33ft/10m infrared night vision ensures 24/7 protection. Supports local and cloud storage for secure recording. Bluetooth pairing for quick setup, remote viewing anytime via mobile app. Compact design with flexible installation, ideal for homes and shops.

 3MP HD Resolution

 Two-Way Audio, with up to 16ft/5m sound pickup range

 Human Auto-Tracking

 360° Pan and 140° Tilt

 Multiple AI Detection Modes (motion / human / area detection, etc.)

 Supports local microSD card storage (up to 256 GB) and cloud storage

New

# Smart Video Doorbell & Chime Kit

## C810

Equipped with a 4MP HD CMOS sensor, it delivers sharp, detailed visuals with a wide 115° field of view. Dual-band WiFi ensures smooth, stable connectivity, while AI-powered detection identifies motion, people, faces, and packages in real time. Communicate easily with two-way audio and save storage efficiently with H.265 video compression. Built with IP65 weatherproof protection and paired with a long-range chime, it offers clear, intelligent, and reliable doorstep security.

 4MP HD clarity with 115° wide-angle view

 Two-Way Audio for instant communication

 Dual-Band WiFi (2.4GHz & 5GHz)

 One-Touch Call & Remote Access from anywhere

 AI Smart Detection for motion, human, face, and package

 IP65 Weatherproof Design

New

# Window Camera

## C680

The C680 Window Camera is equipped with an ultra-large F1.0 aperture and a 100° wide-angle lens, delivering true-to-life color night vision that looks as bright as daytime—even in complete darkness. With its newly upgraded hassle-free installation, you can simply stick it in place and start monitoring instantly.

 3MP High-Definition Resolution

 24/7 True-to-Life Color Imaging

 Smart Human & Vehicle Detection

 Dual-Band WiFi (2.4 GHz & 5 GHz) Support

 F1.0 Ultra-Large Aperture for Superior Low-Light Performance

 No Drilling Required – Stick & Use Installation

# WiFi Camera with Monitor

## C520M

The brand new 4MP/5MP indoor camera features a built-in monitor for easy two-way video calls and local weather display. With dual-band WiFi, advanced AI detection, and voice control, it ensures seamless communication and smart home security. Dual motors allow separate lens movement with a simple tap, you can activate privacy mode, point the lens downward for added peace of mind.

 Dual-band 2.4GHz and 5GHz WiFi support.

 Hands-Free voice control.

 Press-to-call with two-way video.

 Advanced AI for human, area and pet detection.

 Displays weather and temperature/humidity.

 Auto human/pets tracking.

# Indoor WiFi Camera

## C688

Tiny but mighty! This indoor camera offers flexible installation with its compact design and magnetic base, plus smart detection, two-way audio, and remote monitoring for versatile home security.

-  2MP high-definition resolution.
-  AI Human and motion detection.
-  Magnetic mount for easy installation.
-  Flexible storage with micro SD card and cloud storage.
-  Two-way audio for real-time communication.
-  Remote monitoring from anywhere.

# 2.5K Baby Monitor

## C516

This brand new baby monitor combines an adorable design with versatile functionality. Advanced AI detection capabilities proactively detect if any Covered Face/Crying/Departure events arise. Soothe your baby's emotions in time via two-way audio. Elevate the atmosphere with integrated music play and stay informed about your baby's comfort with temperature and humidity sensing.

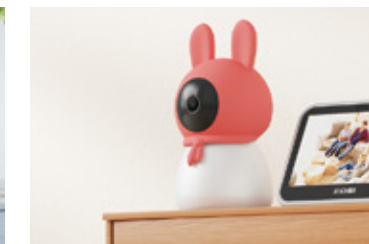

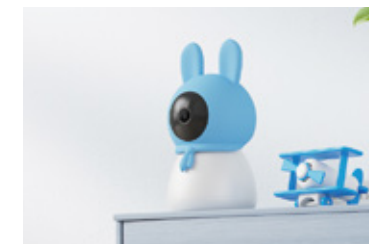

4MP 4MP HD clarity for vibrant details

Secure data with micro SD card and cloud storage

Effortless two-way audio communication

AI Perimeter Detection , crying, and covered face detection

Wide 355° horizontal & 90° vertical view

# 2MP/3MP/4MP/4K AI Indoor Pan & Tilt WiFi Security Camera

## C518

With AI detection, this smart home camera can identify person and face instantly. This camera also featured crying detection, enabling you to always focus on what you care about. In addition, this camera can enrich your world with more details in impressive 2MP/3MP/4MP/4K resolution.

 2MP/3MP/4MP/4K super-clear pixels, providing high-quality images

 2.4GHz & 5GHz, high-speed dual-band

 Two-Way audio, easy intercom anytime, anywhere

 Powerful AI - Person detection

 Press the button for real-time calls

 355° Pan & 90° Tilt wide viewing angle

# Indoor 4MP/5MP Pan & Tilt Camera with Built-in Screen

## C519M

Step into the future with our indoor pan-tilt camera. Enjoy 4MP/5MP/8MP live streaming in 355°horizontal and 90°vertical views. Connect easily via dual-band WiFi. AI-driven features include human, OK-Gesture Recognition and Area detection. Your memories stay secure with both memory card and cloud storage. Elevate communication with one-touch video calls. This is more than a camera - it's your gateway to seamless, immersive living.

 Superior image quality with 4MP/5MP/8MP resolution

 2.4GHz & 5GHz dual-band WiFi connectivity

 Built-in screen for two-way video calls

 AI-powered human, and audio anomaly detection

 One-click calling for instant connection

 355° horizontal & 90° vertical field of view

# Indoor Dual-Lens 2.4/5 GHz WiFi Camera

## C528

Dual lens capture intricate details for simultaneous dual visual experience. Enjoy one-touch calling and full-duplex intercom for effortless communication. Advanced detection along with human tracking abilities, effortlessly zeroing in on subjects of interest. Hassle-free installation makes it a perfect fit for indoor scenarios such as living rooms, shops, and baby rooms.

 2MP+2MP/3MP+3MP/4MP+4MP/5MP+5MP HD image quality

 2.4GHz & 5GHz dual-band WiFi connectivity

 Dual-camera design: one for panoramic view and one for detailed capture

 Support for SD card and cloud storage for double data security

 355° pan & 90° tilt for ultra wide field of view

 One-click calling and full-duplex intercom communication

# Indoor Dual-Lens Camera with Built-in Screen

## C528M

Revel in the brilliance of 3MP+3MP clarity and a dual-lens design complete with an integrated screen. Engage in face-to-face video conversations and take advantage of advanced algorithms for human and gesture detection etc. Keep track of objects with 355°pan and 90°tilt. Perfect for indoor spaces like living rooms, shops, and nurseries.

 3MP+3MP HD image quality

 Simultaneous dual-feed: one for panoramic view and one for detailed shots

 Dual-band 2.4GHz/5GHz WiFi connectivity

 Built-in screen for two-way video calls

 Advanced algorithms for human/audio anomaly detection

 355° pan & 90° tilt, human tracking for precise locking

## 100% Wire-Free Battery cameras

The battery-powered cameras are 100% wire-free! They are powered by long-lasting rechargeable batteries and with external solar panels for 24/7 non-stop power. No cords, no wiring required and no more installation restrictions. With a portable, wire-free, hassle-free and all-weather design, suitable for outdoors and indoors use.

# Pan & Tilt WiFi Battery Camera

## C291 WiFi

Experience worry-free security with this WiFi camera's long-lasting battery and solar panel compatibility. With panoramic coverage, human tracking, and two-way audio, it's built to keep you connected and in control, wherever you are.

 Large-Capacity battery for long-lasting power

 Solar panel support for eco-friendly recharging

 Detects and follows human movement

 Remote monitoring & two-way audio

 Pan and tilt, 355° horizontal & 140° vertical viewing angle

 IP66 Waterproof rating to withstand harsh conditions

# Pan & Tilt 4G LTE Battery Camera

## C291 4G

This 4G LTE camera offers off-grid monitoring with a cellular subscription plan for unlimited data. Combined with long-lasting power, panoramic views, and smart tracking, it's built for reliable protection in remote locations.

 Work on 4G LTE network, ideal for remote locations with no WiFi or power

 Large-Capacity battery for long-lasting power

 Detects and follows human movement

 Pan and tilt, 355° horizontal & 140° vertical viewing angle

 Solar panel support for eco-friendly recharging

 Remote monitoring & two-way audio

# Smart WiFi Battery Camera

## C1 Pro

Stay charged and stay powered, no strings attached. It is compact in size and flexible in installation using magnetic or screw on bracket mounting. C1 Pro can also be simply placed on any flat surfaces.

-  3MP HD pixels for clearer images quality
-  Built-in rechargeable battery, suitable for indoors and outdoors use
-  Supports charging with external green & energy-saving solar panel

-  Light & Siren alarm, proactive defense
-  PIR Motion detection & Person detection, capturing suspicious precisely
-  Two-Way audio, easy intercom anytime, anywhere

# Smart WiFi Removable Battery Camera

## C306 Pro

The large-capacity battery camera excels in battery life. In addition, the battery is removable and can be charged alone. Simple to install, this camera can be used anywhere, providing 24/7 reliable video recording in crisp 2K resolution.

-  3MP HD pixels for clearer images quality
-  Removable high-capacity battery, more convenient to replace
-  Supports charging with external green & energy-saving solar panel

-  Light & Siren alarm, proactive defense
-  PIR Motion detection & Person detection, capturing suspicious movement precisely
-  Two-Way audio, easy intercom anytime, anywhere

## Outdoor Pan & Tilt WiFi Security Cameras

Compared with traditional wired cameras, The Outdoor PT Cameras can rotate in different directions and capture details in every corner with no blind spots. They not only have high-gain dual-band WiFi antennas for reliable remote access anytime, anywhere, but also have a all-weather protected design for 24/7 video and audio recording.

# Pan & Tilt WiFi 6 Camera

## C289

Unlock seamless security with our next-level WiFi 6 camera. Featuring 2MP/3MP/4MP HD resolution, 24/7 uninterrupted monitoring, and smart human and vehicle detection with auto-tracking, it's your reliable, always-connected security solution.

-  WiFi 6 for faster, smoother connectivity
-  AI person and vehicle detection
-  Human tracking follows movement automatically

-  Smart night vision for clear footage in darkness
-  Cloud or SD storage for flexible options
-  Remote monitoring with two-way talk

# Pan & Tilt WiFi 6 Camera

## C290

Discover the amazing PT dome camera powered by WiFi 6 technology! Immerse yourself in 2MP/4MP/8MP high-definition clarity. WiFi 6 ensures lightning-fast connection, while constant power guarantees non-stop 24/7 surveillance. With AI detection for people and vehicles and precise human figure tracking, it's your reliable security companion. Enjoy intelligent night vision for clear views even in the dark. Plus, it can be wall-mounted or ceiling-mounted for flexible installation. Don't miss out on this top-notch security solution!

 WiFi 6 for faster, smoother connectivity

 355° Pan & 140° Tilt wide viewing angle

 AI person and vehicle detection

 Proactive defense with intelligent light and siren deterrence

 Intelligent human tracking for pinpoint precision

 Effortless two-way audio communication anytime, anywhere

New

# Pan & Tilt WiFi 6 Camera

## C296B

Step into a world of unrivaled security with the C296B High-Definition Wi-Fi 6 PT Surveillance Camera. Immerse yourself in stunning clarity that captures every detail with precision. Powered by Wi-Fi 6 technology, enjoy lightning-fast and rock-solid connectivity. Engage in real-time two-way audio conversations through your mobile devices, no matter where you are. The advanced AI is a game-changer. It offers accurate pet detection, flame detection, and face detection. Choose the C296B High-Definition Wi-Fi 6 PT Surveillance Camera and experience security redefined.

 5MP/8MP ultra HD image

 Human tracking automatically follows movement

 WiFi 6 for fast, reliable connectivity

 Remote monitoring with two-way talk

 Upgraded AI detects humans, zones, pets, faces, and flames

 Pan and tilt, 355° horizontal & 140° vertical viewing angle

# Aurora Lux WiFi 6 Camera

## C296A

Experience unmatched clarity with the Aurora Lux camera. Its F1.0 aperture, ultra-sensitive sensor, and advanced AI-ISP technology provide vibrant, true-color images in ultra-low light. Equipped with a powerful 4.0 TOPS NPU for intelligent image perfection and precise detection, it elevates your night vision experience to an entirely new level.

 5MP/8MP ultra HD image

 Advanced AI for human, vehicle, and area detection

 WiFi 6 technology for uninterrupted connectivity

 Automatic human tracking

 Pan and tilt, 355° horizontal & 140° vertical viewing angle

 24/7 True color images in extremely low light

# Triple-Lens WiFi 6 Camera

Step into the new era of smart security with our Triple-Lens WiFi6 camera, designed for multi-angle coverage and high-speed wireless performance. Equipped with three independent high-definition lenses, it delivers 360° panoramic monitoring, capturing every detail from all directions. With ultra-fast WiFi6 connectivity, it delivers smooth, low-latency streaming even in complex environments, providing reliable, real-time protection for your home, yard, or business.

 2MP+2MP+2MP resolution for crystal clear video

 Pan and tilt, 355° horizontal & 140° vertical viewing angle

 WiFi 6 for fast, reliable connectivity

 AI person, vehicle, and area detection

 Triple lens in one for 360° multi-angle monitoring

 Smart human tracking

# Dual-Lens WiFi 6 Camera

## C298

Upgrade your surveillance with C298 dual-lens camera. Combining panoramic view and close-up detailed view in one device, it delivers 2MP+2MP / 2MP+4MP / 4MP+4MP clarity, this camera offers smooth connectivity and smart AI for accurate detection and tracking. The C298 dual-lens camera is truly a cut above the rest, offering a unique combination of features that make it an essential addition to any surveillance system. Upgrade today and experience a new level of security and clarity.

 2MP+2MP / 4MP+4MP / 5MP+5MP resolution for ultra clear video

 WiFi 6 for fast, reliable connectivity

 Dual camera in one for both panoramic and close-up views

 Pan and tilt, 355° horizontal & 140° vertical viewing angle

 AI person, vehicle, and area detection

 Smart human tracking

## Outdoor Bullet WiFi Security Cameras

Meet the Outdoor WiFi Cameras - All Weather Protection. With IP66 weather resistance, The outdoor WiFi cams can shrug off dust, rain, and snow with no worries. Enhanced with high quality WiFi chip, this can effectively ensure unobstructed signal transmission, providing round-the-clock outdoor surveillance recording.

New

# WiFi 6 Outdoor/Indoor Camera

## C696

Compact yet powerful, the C696 Outdoor/Indoor Camera is designed for flexible and effortless setup with its magnetic mounting base. It not only offers smart detection and real-time two-way talk, but also features light & sound alarms for active deterrence, plus remote monitoring to keep your home secure at all times.

 3MP High-Definition Resolution

 Light & Sound Alarm for Proactive Defense

 Smart Human & Vehicle Detection

 Magnetic Mount for Flexible, Easy Installation

 Two-Way Audio for Instant Communication Anytime, Anywhere

 WiFi 6 Connectivity for Faster, Smoother Streaming

# WiFi 6 Camera

## C188

This 4MP WiFi 6 camera combines high-definition clarity with seamless connectivity and advanced AI detection. Enjoy features like two-way audio, custom alerts, and smart night vision for comprehensive protection.

 4MP high-definition resolution.

 AI human and vehicle detection.

 WiFi 6 for fast, reliable connectivity.

 Custom voice alerts.

 Two-way real-time communication.

 Smart night vision mode.

# Aurora Lux dual-band WiFi Security Camera

## C186A

A vigilant home guard with top-of-the-line dual-band supports 2.4 GHz and 5 GHz WiFi. Equipped with an extraordinary F/1.0 aperture lens and cutting-edge AI-ISP technology, it captures vivid color images even in the darkest environments. Experience night as if it were day with true all-day full-color and natural, detailed image restoration. Powered by a formidable 4.0 TOPS NPU, it accurately detects humans and vehicles, sending relevant information to your phone for precise alerts and instant feedback. Move from simply "seeing" to truly "seeing clearly" and even "understanding" with the C186A Aurora Lux WiFi Camera.

 5MP/8MP ultra-high resolution for sharp, detailed images.

 Advanced AI for human, vehicle, and area detection.

 Dual-band 2.4GHz and 5GHz WiFi support.

 Light and siren deterrence.

 24/7 True color images in extremely low light.

 IP66 weather-resistant design.

## 02 Network Security System / Camera

### 32-channel 4K non-PoE NVR

32-channel 4K non-PoE NVR supports 32-channel IPC access and 4K recording. Dual SATA bays support up to 16TB storage. With H.265+ and smart detection, 4K HDMI output, multi-protocol compatibility and remote access, it delivers stable surveillance for home and shop.

- HD 32-channel access, supports 8MP/4K ultra-clear recording
- Dual HDD bays, up to 8TB per disk
- H.265+ H.265+ high-efficiency encoding, saves storage space
- Human/face/vehicle intelligent detection & alarm
- 4K HDMI + VGA dual synchronous output
- Supports ONVIF, wide compatibility
- Remote monitoring via phone & PC
- Multiple recording modes, smart search & playback
- Aluminum alloy body, stable and durable
- Suitable for home and shop scenarios

### 64CH 8-Bay 4K NVR

A powerful 64-channel network video recorder designed for large-scale surveillance deployments. Supporting up to 8MP ultra HD video, it ensures smooth live viewing, reliable recording, and fast playback. With 8 SATA bays for massive storage, AI-powered detection, and 4K display output, the system delivers efficient and intelligent security management for commercial and enterprise applications.

- HD 64CH 8MP/5MP/4MP IP Camera Access
- 8-Bay Large-Capacity Storage
- H.265+ H.265+ High-Efficiency Compression
- AI Human, Vehicle, Face, Unusual Sound Detection
- Light & Sound Active Deterrence
- Dual 4K HDMI Ultra-HD Display
- Multi-Platform Remote Monitoring and Management
- Industrial-Grade Aluminum Housing

## Full-series Gigabit PoE switches

Full-series Gigabit PoE switches come in 4/8/16/24-port options. One cable delivers both data and power, ideal for surveillance cameras, wireless APs and other devices. Compliant with standard PoE protocols, plug-and-play with auto-detection. Gigabit speed supports smooth HD video. Built with smart power-saving, QoS, full-duplex flow control. Neat wiring, stable performance, perfect for home, shop and project networking.

### 4-port

- 4 PoE Ports, Data & Power Over One Cable
- 1 Gigabit Uplink, Compact & Expandable
- 30W Per Port, Full Compatibility
- 65W Total Power, Multi-Device Ready
- Full Gigabit Speed, Smooth HD Streaming
- Plug & Play, No Configuration Needed
- Auto Detection & Fault Recovery
- QoS Control, Stable Transmission
- 2K MAC Table, Stable Multi-Device Link
- High-Performance Forwarding

### 8-port

- 8 PoE Ports, Data & Power Over One Cable
- Dual Gigabit Uplink for Stronger Expansion
- 30W Per Port, Full Compatibility
- 96W Total Power, Multi-Device Ready
- Full Gigabit Speed, Smooth HD Streaming
- Plug & Play, No Configuration Needed
- Auto Detection & Fault Recovery
- QoS Control, Stable Transmission
- 2K MAC Table, Stable Multi-Device Lin

### 16-port

- 16 PoE Ports, Data & Power Over One Cable
- Dual Gigabit Uplink for Stronger Expansion
- 30W Per Port, Full Compatibility
- 156W Total Power, Multi-Device Ready
- Full Gigabit Speed, Smooth HD Streaming
- Plug & Play, No Configuration Needed
- Auto Detection & Fault Recovery
- QoS Control, Stable Transmission
- 2K MAC Table, Stable Multi-Device Link
- High-Performance Forwarding

### 24-port

- 24 PoE Ports, Data & Power Over One Cable
- Dual SFP Uplink, Long-Distance Expansion
- 30W Per Port, Full Compatibility
- 156W Total Power, Multi-Device Ready
- Full Gigabit Speed, Smooth HD Streaming
- Plug & Play, No Configuration Needed
- Auto Detection & Fault Recovery
- QoS Control, Stable Transmission
- 16K MAC Table, High Device Capacity
- High-Performance Forwarding

## Upgraded AI-Powered 12MP/8MP/5MP PoE Cameras

Experience high-resolution monitoring with our 12MP, 8MP, and 5MP PoE cameras. Each model captures rich details in any light—day or night. The 12MP model features a premium sensor, making it easy to identify distant objects, license plates, or facial details. The 8MP model delivers higher resolution for professional security needs. The 5MP model offers reliable clarity for everyday monitoring.

### C182

- 📺 12MP/8MP/5MP— High-resolution monitoring for any scenario
- 🌙 Starlight night vision/Smart night vision
- 👤 AI-powered Human, Vehicle, Face, & Voice Activity Detection
- 🔔 Light & Siren alarm, proactive defense
- 🗣️ Two-Way audio, easy intercom anytime, anywhere
- 📺 PoE power supply/DC 12V power supply
- 🔧 Easy setup PoE system, 100% plug and play
- 🌧️ IP66 waterproof, easily handle with all kinds of outdoor weather

### C225

- 📺 12MP/8MP/5MP— High-resolution monitoring for any scenario

## C298 PoE Camera - New Product Introduction

C298 outdoor bullet-PTZ linkage camera combines dual-lens coverage with wide-angle and precision tracking. 100ft/30m infrared night vision plus full-color mode provides all-day outdoor protection. PoE power supply simplifies installation. AI detection identifies humans, vehicles, and more. Auto human tracking with one-click manual control ensures no dynamic capture is missed. Built-in sound-light alarm and two-way audio with 16ft/5m clear pickup. IP66 waterproof and dustproof for harsh environments. Local storage prevents data leaks, APP real-time alerts, multi-platform management. Professional security solution for yards, parking lots, and outdoor areas.

### C298

- 5MP + 5MP / 4MP + 4MP ultra-clear resolution options
- Dual-Lens Bullet + PT Design for wide coverage and precise tracking
- PoE Power Supply for easier installation and simplified cabling
- Advanced AI Detection for motion, people, vehicles, and intrusion detection
- Sound & Light Alarm with built-in siren and warning light

## C290 4K PoE Camera - New Product Introduction

Outdoor PTZ camera with 8MP high-resolution CMOS sensor, capturing every detail. Supports human/vehicle auto-tracking for precise target monitoring. Multiple AI detection algorithms intelligently identify intrusion attempts. 100ft/30m infrared night vision turns night into day. IP66 waterproof and dustproof rating withstands harsh weather. H.265+ encoding saves storage space. Two-way audio enables barrier-free remote communication. A powerful security guardian for home yards and shop entrances.

### C290

- 8MP Ultra HD Resolution (3840 × 2160)
- Human Auto-Tracking
- Multiple AI Detection Modes (motion/face/area/loitering detection, etc.)
- Two-Way Audio with built-in high-sensitivity microphone
- IP66 Professional Weatherproof Design
- H.265/H.265+ efficient compression for reduced storage usage
- Supports PoE and DC 12V dual power input

### C429

- 5MP Super-HD Resolution (2880×1620)
- AI Human & Vehicle Detection
- 100ft/30m Long-Range Infrared Night Vision
- IP66 Rated Metal Housing for Weatherproofing
- H.265/H.265+ High-Efficiency Video Coding
- Dual Power Support: PoE (IEEE 802.3af) & DC12V
- Customizable Privacy Masking Zones
- Durable Aluminum Alloy Construction
- ONVIF Protocol Support for Multi-Platform Compatibility

## Crystal-clear 2.5K PoE Cameras

One Ethernet cable is all that you need per camera to transfer power and data. Compared to the traditional analog wired security systems, The PoE camera simplifies the cabling issues while upgrading the security and privacy protection of data transmission.

### C180

- 🎤 Built-in clear microphone, one-way audio pick-up
- 🔌 DC 12V power supply/PoE power supply
- 🔌 Easy setup PoE system, 100% plug and play
- 🌙 Ultra-long distance infrared night vision
- 📷 4MP super- clear pixels, enjoying fineness and outstanding videos
- 👤 AI human & motion detection, catching the suspicious situation quickly
- ☁️ IP66 waterproof, easily handle with all kinds of outdoor weather

### C220

- 🎤 Built-in clear microphone, one-way audio pick-up
- 🔌 DC 12V power supply/PoE power supply
- 🔌 Easy setup PoE system, 100% plug and play
- 🌙 Ultra-long distance infrared night vision
- 📷 4MP super- clear pixels, enjoying fineness and outstanding videos
- 👤 AI human & motion detection, catching the suspicious situation quickly
- ☁️ IP66 waterproof, easily handle with all kinds of outdoor weather

## Wireless Security Camera System

### Wi-Fi HaLow Solar-Powered Camera Kit

Redefining next-generation battery-powered surveillance. The C291 4MP WiFi-HaLow camera combines crystal-clear imaging, long-range stable connectivity, and ultra-low power consumption. With a built-in 10,050mAh battery and solar charging, it runs for weeks without wiring—perfect for homes, farms, warehouses, or remote sites. Simply set it up and enjoy reliable, wire-free protection anywhere.

### C291

C291 Camera+ S series WiFi NVR

- WiFi-HaLow: Stable, long-range connection
- 10,050mAh Battery and solar charging, no wiring hassles
- 4MP ultra-clear resolution
- Smart AI detection & tracking
- Real-time two-way audio
- Light and siren deterrent
- Customizable privacy zones
- 360° full coverage view
- Remote access anywhere
- All-weather durability
- Plug-and-play with auto pairing.
- IP66 waterproof rating.

## Battery WiFi Security Camera System

Battery-powered WiFi security camera systems, a true wire-free system with no wires required for the cameras. With a stable WiFi connection, this system can deliver great performance. Featuring accuracy detection and proactive defense function, so you can install the cameras anywhere around your household to protect every corner that matters to you.

## C1 Pro JK

- 3MP 3MP HD pixels for clearer images quality
- WiFi Wireless connection, transmitting stable WiFi signal
- Micro Two-Way audio, easy intercom anytime, anywhere
- Light & Siren alarm, proactive defense
- SD Supports up to 256GB Micro SD card storage
- PIR PIR Motion detection & Person detection, capturing suspicious precisely
- Smart night vision, seeing full color images in day & night
- Battery Built-in rechargeable battery, suitable for indoors and outdoors use
- Solar Supports charging with external green & energy-saving solar panel

C1 Pro + J series WiFi NVR

## C306PK

- 3MP 3MP HD pixels for clearer images quality
- WiFi Wireless connection, transmitting stable WiFi signal
- Audio Two-Way Audio, easy intercom anytime, anywhere
- Light & Siren alarm, proactive defense
- Smart night vision, seeing full color images in day & night
- HDD Supports up to 8TB HDD High-capacity local storage
- PIR PIR Motion detection & Person detection, capturing suspicious precisely
- Battery Supports charging with external green & energy-saving solar panel
- Removable high-capacity battery, more convenient to replace

### C186A

- WiFi 6 technology for fast, uninterrupted connectivity.
- 8MP/5MP high resolution.
- F1.0 large aperture and AI-ISP for enhanced imaging.
- 24/7 True color images in extremely low light.
- Two-way audio for real-time communication.
- Advanced AI human/area detection.
- Sound and light alarms for enhanced security.
- Privacy masking for secure monitoring.
- Plug-and-play with auto pairing.
- 24/7 round-the-clock monitoring.
- IP66 waterproof rating.

## Pan & Tilt WiFi 6 Security and Surveillance System

Enhance your entire home's security with our WiFi 6 camera system. Offering fast, stable connections and crystal-clear 5MP/8MP video, it provides 360° full coverage for every corner. With advanced AI detection and 24/7 monitoring, it delivers comprehensive protection for your home, inside and out.

### C296B

- WiFi 6 technology for fast, uninterrupted connectivity.
- 8MP/5MP high resolution.
- Pan and tilt, 355° horizontal & 140° vertical viewing angle.
- Automatic human tracking.
- Two-way audio for real-time communication.
- Advanced AI human/area/pet/faces/flame detection
- Sound and light alarms for enhanced security.
- Smart night vision mode.
- Plug-and-play with auto pairing.
- 24/7 round-the-clock monitoring.
- Privacy masking for secure monitoring.
- IP66 waterproof rating.

## WiFi 6 Security Camera System

Afraid of messy cabling? The WiFi security camera system is simple to install with no cabling needed. Simply plug in the adapter and power on the system, you can view live in just a few seconds. The WiFi security system is perfect for home and business protection.

## C302

- 3MP 3MP HD pixels for clearer images quality
- Wireless connection, transmitting stable WiFi signal
- AUTO True plug & play, auto-pairing in seconds
- Remote access and control, 24/7 surveillance recording
- Two-Way audio, easy intercom anytime, anywhere
- Light & Siren alarm, proactive defense
- AI human & motion detection

## C280

- 5MP 5MP HD pixels for clearer images quality
- Wireless connection, transmitting stable WiFi signal
- 355° Pan & 140° Tilt wide viewing angle
- Two-Way audio, easy intercom anytime, anywhere
- Light & Siren alarm, proactive defense
- Smart auto-cruise, always insight into the abnormal
- AUTO True plug & play, auto-pairing in seconds
- Remote access and control, 24/7 surveillance recording
- AI human & motion detection

# 04 Smart AI DVR

## AI DVR System 8MP/5MP/2MP

It is time to upgrade your analog security camera system, The newly developed analog security system offer a leading-edge home & business surveillance, incorporating the latest AI technology to provide more secure 24/7 local or remote connectivity.

## C280+N series DVR Pan/Tilt Surveillance Kit

- Ⓜ 8MP /5MP /2MP Full HD, delivering smooth & clear videos
- 🎤 Built-in microphone, one-way audio pick-up
- 👤 AI-powered Human & Vehicle detection
- Ⓜ265+ Advanced H.265+ Video compression format
- 🕒 24/7 surveillance, audio & video recording
- 💾 Supports up to 8TB HDD High-capacity local storage
- 📐 355° Pan & 140° Tilt wide viewing angle

## C303+N series DVR HD Camera AI Surveillance Kit

- Ⓜ 8MP/5MP/2MP Full HD, delivering smooth & clear videos
- 🎤 Built-in microphone, one-way audio pick-up
- 👤 AI-powered Human & Vehicle detection
- Ⓜ265+ Advanced H.265+ Video compression format
- 🕒 24/7 surveillance, audio & video recording
- 💾 Supports up to 8TB HDD High-capacity local storage
